2026 Choice Diabetic List

Your diabetic prescription benefit is a valuable part of your coverage. It is important you understand this benefit so you can get the most out of your coverage. Items on this list are covered items. Insulins and supplies that are not included on this list may require an exception review to determine whether coverage criteria are met, and may be subject to copayments, coinsurance and/or deductible.

Covered items are divided into two categories:

- **Diabetic supply list** – $0 copay; you will not incur any out-of-pocket costs for items on this list.
- **Insulin list** – members will pay no more than a $25 copay per month of each insulin on this list.

Refer to benefit plan documents to make sure listed medication is included in your benefit. This list should be used as a reference and may not include all medications. Brand or generic availability may not be current because of market changes. Using generics may be required based on your plan benefit.

Questions?

If you have questions or need more information about this benefit, call Security Health Plan's Pharmacy Services Department.
